Dear Leighton.

Thank you for letter dated 29/6/1944 concerning the problems with the plumbing connections prices. I must admit I did not expect a reply and I am grateful you have replied. Seeing that this was an honest mistake we have already put this matter aside, I am sure the house will be completed on amicable terms, we are in fact quite impressed with the quality of the work being done, so much impressed in fact that we would be more than happy to give references for the quality of your work.

Yours faithfully

Petrowski
