Subject: Thank you
Attachments: "AVG certification".txt

This is sent to thank you for your calls and information that you have extended to my husband Graham & I about building our home in Woodend but we have signed with a company in Bendigo and we are proceeding asap.

It was a matter of time for me to go through another quote process and I really did not have such time. I run my own business and trying to juggle both has been very time consuming for me.

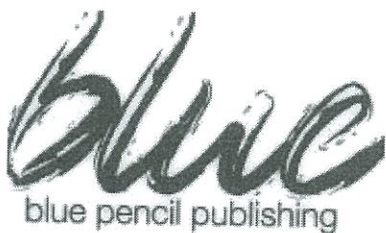

We were really impressed with both companies and I feel sure that either would have built us our beautiful new home, but we started with the other firm quite some time ago and we have to move forward.

Rest assured if there is anyone considering building a home I will put your company name out there as well.

Thank you and sorry you missed this opportunity.

Cheers!

Lyn
