Hi Chris,

Thank you for following up on our quote several times over the last two months. I owe you the courtesy of letting you know that once we have the amended plans back from council we will be putting our building project on hold until further notice for family reasons. It looks like it might be early next year at this stage. Once we get back on our feet I will be sure to contact you as your service has been outstanding. thanks for your time and patience.

Leigh
